

## SYMPTOM KIT TESTIMONIES

anyone can do this and get results

1. A client has high blood pressure that we have not been able to get a good handle on with TBA remedies yet was given the remedy for hypertension. His diastolic pressure dropped 13 points in 1 hr after taking the symptom remedy every 15 minutes. He takes it now three times a day and he has no head pounding or symptomatology of hypertension. This client is on TBA but we've not been able to conquer the blood pressure issue. It is genetic and it's been hard to handle.
2. A client was recovering from pneumonia after the flu this year and she was complaining of a "lump" in the back of her throat due to coughing or mucus, and she was given the bronchial remedy. The next morning the "lump" was gone and has never returned. -A TBA client.
3. A client had an immovable middle joint in her thumb from repetitive motion. After one day of taking the remedy for stiff joints, her thumb is now movable and free of pain.
4. Another client with arthritis has been dropping glasses, etc due to the pain in her hands. After one day of taking the remedy for aching joints, the pain is gone. She worked in the yard for six hours planting her flowerbeds with no symptoms at all. This lady is also on TBA.
5. A client with active shingles was given the shingles remedy. She slept all night the first night she took the remedy and the symptoms have dramatically decreased.
6. A client who lost everything in one of the Florida hurricanes has been suffering from severe depression. I sent her a remedy for depression, along with a TBA for emotional trauma, and she is substantially better.
7. I have one dog who has a protruded disc in her back. She started limping and favoring her right rear leg about two weeks ago and I could tell the leg was probably numb because she would walk around in a circle on that leg, evidently trying to get feeling back into it. I made her a remedy for sciatica and within 30 minutes the limping and symptoms were gone. In fact, she was running again, playing with the other dogs. Thank you for the Symptom Kit. I also see amazing long-term results with the TBA but the Symptom Kit is almost instantaneous.
